

## SPONSORSHIP OPPORTUNITY

### *Connections Matter*

Wallowa Valley Center for Wellness is dedicating the year to combating loneliness and helping each of us to find connections in our community. One way to combat suicide ideation is social connection. Social connection can lower depression and anxiety, help us regulate emotions, and improve our immune systems. Our focus in 2024 is to create opportunities to build and strengthen social connection. Over the year, we are offering different opportunities to connect with one another through educational classes, social events, and support groups.

### *Live in Hope Benefit Event*

**MAY 4, 2024**

You have the opportunity to have your name associated with our annual fundraising event and to be seen as a leader in our community that supports mental wellness. We are raising funds to support our mission work.

On May 4, 2024 we will host our fundraising event at Wallowa Lake Lodge that we will bring together our community to celebrate hope. Prior to the pandemic, we hosted our event at the lodge and raised over \$600,000 for our Hearts for Health Capital Campaign. We are excited to have our fundraiser continue at the lodge.

Again, we will be raising critical funds for mission work in Wallowa County and share how our programs provides hope to individuals and families. Join us in making a difference.
